

merely tracks registered applications and their file operations with their documents, it includes only the shortcuts to documents that have been manipulated by registered applications. There is no capability in Windows95 for adding a link to a folder in the most-recently-used documents list of Windows95. Accordingly, as Windows95 fails to teach including a link to one or more document folders on a most-recently-used list, then Windows95 does not anticipate Claim 19 or 28. Additionally, as Claim 20 depends from Claim 19, Claim 20 is allowable for all the reasons noted above with regard to Claim 19. As Windows95 fails to teach the elements of these claims, these claims are not anticipated by Windows95 and are now in condition for allowance.

#### CONCLUSION

In view of the foregoing remarks, it is submitted that the present application is now in condition for allowance. Reconsideration and reexamination of the application and passage of the application to issue at an early date are respectfully solicited. If the Examiner has any questions or comments concerning this application, the Examiner is invited to contact applicants' undersigned attorney at the number below.

Respectfully submitted,

CHRISTENSEN O'CONNOR
